## Evening Brief

Date: Monday October 1<sup>st</sup>, 2018

---

### Weather Summary

Widespread wetting rains move into the Geographic Area on Tuesday. Much of Utah, NV and southeast ID/western WY will see significant widespread precipitation beginning on Tuesday. Widespread showers will across the region through the workweek.

---

### Preparedness Levels & Great Basin Fire Activity (from WFDSS)

Great Basin	3
National	2

<i>Light Initial Attack Activity</i> GB New Fires and Acres: 7 fires 37.7 acres; 4,839 acres large fire growth
---

---

Great Basin Fuel Status [interactive link](#) (Use Edge, Chrome or Firefox browsers)

Fuels and Fire Behavior advisory has been updated and issued for [Northern Great Basin](#)

### Fuels/Fire Potential

The current 3-4 week dry period across the region has resulted in record or near record dry dead fuels across Utah, Nevada, the AZ Strip, Southern Idaho and Western Wyoming. Most ERC's in these areas are in the 80th-90th percentile, with some areas still in the 97th percentile over eastern Idaho and Wyoming into parts of northern Utah and northern Nevada. Even those near the 80th percentile are near peak mid-summer normals, as well as near or at records for this late in the year. Further north, across the northern Payette and Salmon Challis forests, ERC's are closer to late September normals.

Live Fuels (Sagebrush) remains near record dry levels, 60-80% across most of Utah/Nevada and far southern Idaho. This, combined with heavy fine fuel loading from the past 2 winters from northern NV/UT and far southern ID, will make large fire growth possible during any ignitions that coincide with moderate or higher wind days.

**Fire danger will see a dramatic decrease as deep moisture spreads throughout the area beginning on Tuesday through the workweek.**

### Resources

#### Aviation within the Great Basin

- 2 VLAT's, 6 LATs, 0 CL-415's
- 10 SEATs, 4 Fire Bosses
- 13 Type 1 Helicopters / 10 Committed
- 10 Type 2 Helicopters / 5 Committed
- 19 Type 3 Helicopters

#### Crews Committed within the Great Basin

- 14 IHCs Committed / 0 Available
- 32 T-2 IAs Committed / 0 Available

## Current Incident Details
